Commissioner Jane Henney  
FDA Dockets Management Branch (HFA-305)  
**Docket No. OOP-1211/CP1**  
5630 Fishers Lane, Room 1061  
Rockville, MD 20857

Attention: Commissioner Jane Henney  
Subject: Genetically Engineered Foods

The enclosed **11,072** comment forms are from Wild Oats Markets, guests and staff concerning the labeling of genetically engineered foods.

Consumers want to know if the products they are eating contain genetically engineered ingredients. As you know, consumers in Europe demanded and got legislation for mandatory labeling of genetically engineered foods. We need your help to ensure the same right to information is made available to American consumers.

Until the international controversy surrounding GE foods is resolved to the satisfaction of our guests, we believe all GE foods should be labeled and a moratorium be imposed on all new GE foods until they are proven safe.

A handwritten signature in cursive script, appearing to read "Mike Gilliland".

In Good Health,  
**Mike Gilliland**  
Founder and Chief Executive Officer  
Wild Oats Markets Inc.
